

RSAMDIO:

Rotaract multidistrict information organizations (MDIO) are regional groups of Rotary districts that form for the purpose of disseminating information and facilitating communication among Rotaract clubs in the participating districts. MDIOs can also provide leadership training to Rotaract clubs and future district Rotaract leaders and organize multidistrict service projects. Each MDIO is comprised two or more Rotary districts. MDIOs serve as regional offices of information and resources.

RSAMDIO stands for Rotaract South Asia Multi District Information Organisation. This multi-district organization was started in 2008 with Rtn. Karthik Kittu being the charter president. The RSAMDIO houses the Districts of South Asian region and along with Rotaract they do projects on the four avenues:

- Club
- Community
- International
- Professional

ROTARY PROJECTS SHOWCASE:

Rotary members and program participants are improving lives in communities around the world every day through thousands of service projects. Explore the good work that we're doing locally and globally, and share these projects through social media.

Members of Rotaract upload their projects in vocational and community services and showcase the changes they've made to community to the global community in Rotaract. This in turn provides a huge networking opportunity for the Rotaractors to connect with the like-minded people across the globe where they can share project ideas, network and create and difference in the community.

ROTARACT OUTSTANDING PROJECT AWARDS:

Rotary recognizes Rotaract clubs that are making significant changes in the society through the Rotary Areas of Focus by executing innovative International and Community service projects. The nomination filing period is between 1st August and 1st February. The Rotary International recognizes outstanding projects from each of the region and awards them annually at the Rotary pre-convention.
