

My dear Rotaractors,

I hope you are in a safe place both mentally and physically. You have been working relentlessly on projects and may I remind you that it is important to take care of your health at all cost. Do give a big pat on your back for enduring whatever hurdle that has come your way so far. I would like to appreciate all the Presidents and Secretaries for following up with the RI Dues, and a gentle reminder to those clubs that are yet to pay the dues. Also, a check to select your upcoming leaders as early as possible. I thank my Council Colleagues for their support throughout all the events, both to the District and to the clubs, especially this month.

Much appreciation to Team HUSTLE - Rotaract District Sports Meet which was held on February 11 and 12; the host clubs - Rotaract Club of Coimbatore Crystals and PSGCAS really pulled off one-of-a-kind Sports meet where the participants were divided into teams. The Team Leads blended in well with the teammates and the interaction was something beyond barriers and portrayed wholesome Rotaraction also ensuring physical fitness too. Much to everyone's liking, the two day event was very much needed amidst Rotaractors' routine works.

SCIZEN was a Science Exhibition put together by Rotaract Club of CIT exclusively for school students. My very hearty appreciation to the entire host team members for pulling in a massive registration count, meaning that a rightful platform to the future generation of Rotaract emerging with Science was provided through this event. The event took place on the 25th of February and it also witnessed a lot of Interactors as well as science enthusiasts from in and around the city, who showcased their talents.

As we march into March, we have our District Conference - ALPHA coming up. All the best for the host clubs for a successful execution of the same. We have one big focus this month and that is our World Rotaract Week Celebration. UTSAV - our own District Initiative for the sustainable development of Government school and orphanage just got released and I encourage clubs to actively take part in serving the society. Let's join together for a good cause to support the community.

I appreciate all the board members and proud members of the clubs for standing strongly with your leaders throughout the year. To be there for them itself is as appreciable as your dedication towards your role in the club. And I would like to say that your hard work is much appreciated and reflected in the District as well.

Let's stick together for a few more months left off of Celebrate Year, only for the seeds we sow now to grow into fortunes as we move forward! Let's together Celebrate Rotaract!
